## TODAY'S BEST INVESTMENT FOR SMALL SAVERS

### NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000 and two joint holders upto Rs. 50,000/-

Deposits accepted in multiples of Rs. 100 upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum, free of income-tax and super-tax and which is not taken into account in assessing the total taxable income, is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay, Calcutta, Delhi and Madras and Branches of the Imperial Bank of India at other places transacting treasury business. Deposits are also accepted at all Treasuries in Part 'A' States at places where the Imperial Bank does not transact treasury business and at all Sub-Treasuries in Part 'A' States; also at Treasuries at Bhuj (Kutch), Imphal (Manipur) and Coorg-Mercara (Coorg).

3½%

TEN-YEAR  
TREASURY SAVINGS.  
DEPOSITS

For further information and/or rules governing these Investments please write to the Provincial National Savings Officer of your State or the National Savings Commissioner, Gorton Castle, Simla-3.

## REMARKS

The figures of births and deaths shown in this statement for week ending the 1st January 1955, relate to 163 towns with an estimated population of 19,798 thousands. The total number of towns is 298 and their population is 37,313 thousands. Thus 55% of the total number of towns representing 53% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 12,498 and 5,077 representing birth and death rates of 32.8 and 13.3 per thousand of population respectively.

(a) States (Part A and C).—The data here relate to 137 towns with an estimated population of 16,028 thousands. Information about Ajmer, Andhra, Bombay and West Bengal could not be included. The total number of towns is 250 and their population is 31,696 thousands. Thus 55% of the total number of towns representing 50% of the total population is covered. The number of births

and deaths recorded in these towns were 10,828 and 4,239 representing birth and death rates of 35.1 and 13.7 per thousand of population respectively. The table at the end gives the position by States.

Bettiah in Bihar was the only town which recorded a high death rate of 56.1 per thousand of population and this high death rate was due to deaths from fevers, respiratory diseases and other causes.

(B) States (Part B).—The data here relate to 26 towns with an estimated population of 3,770 thousands. The total number of towns is 48 and their population is 5,617 thousands. Thus 54% of the total number of towns representing 67% of the total population is covered. The number of births and deaths recorded in these towns were 1,670 and 838 representing birth and death rates of 23.0 and 11.5 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
